## KING EDWARD SUFFERS FROM COLD AND FEVER

Much Anxiety Is Felt in London Over the Condition of Great Britain's Monarch.

London, Feb. 3.—King Edward is again ill, and although the royal physicians report that his majesty is suffering only from a severe cold and fever, a great deal of anxiety is felt here. It is feared that his majesty may be more seriously ill than the doctors are willing to admit.

The King had arranged to go to Chatsworth to pay a visit to the Duke and Duchess of Devonshire, but Sir Francis Laking, physician in ordinary to the King, would not allow his majesty to venture out, and the visit was postponed.

King Edward was out planting trees at Datchet, opposite Windsor, and was apparently in good health and spirits. It is stated, however, that he was not altogether himself and should not have been out. On his return to Windsor castle Sir Francis Laking, physician in ordinary to the King, was sent for. It was considered unsafe to allow his majesty to travel while he was suffering from the cold. The Queen telegraphed the Duchess of Devonshire that it was impossible for his majesty to start for Chatsworth.

## UNCLE SAM HAS A MILLION MEN

Could Put Over Ten Million Citizen Soldiers into the Field at Once.

Washington, D. C., Feb. 3.—(Special.)—It was brought out in the house today that this country is prepared for an unprovoked emergency such as the Venezuela situation may lead to as it has never been prepared before.

Should the tripartite alliance throw down the gauntlet to the United States and trample on the Monroe doctrine, there would be immediately available for military duty, although unorganized 10,363,396 men.

This number is greater than the combined organized forces of Europe. Military experts say that the American recruits could be drilled into a high state of efficiency in much quicker time than during the Spanish war, and that the allies' armies would be no match for them and the regulars and militia.

## BATTLE OF FEZ WAS STUBBORN

Sultan's Purchase of Tribe's Treason Brings a Hard Won Victory.

Tangier, Morocco, Feb. 3.—(Special.)—The details of the sultan's victory Thursday over the forces of the pretender show that the battle was stubbornly contested, and that the former's success was largely due to co-operation, at a critical moment, of the Beni Ourein tribes, whose defection the sultan purchased.

The sultan's troops opened the attack early in the morning, and shortly afterwards the pretender's camp was assailed in the rear by the Beni Ourein's.

Despite the surprise and the disadvantage of the position, the rebels stubbornly maintained their ground and desperate fighting continued for three hours. The pretender's capture is confidently expected.

This amendment, in spite of the opposition of Gen. Andre and the commission, was adopted by 322 votes to 213. A bill which came from the state board of pharmacy provides that its members shall be ineligible to re-appointment under five years.

**State Paper**  
A newspaper war was precipitated in a bill introduced in the Senate making the Evening Wisconsin, Milwaukee, instead of the State Journal, Madison, the official state paper. A similar bill at former session nearly went through. The appointments sent to the Senate last night by the governor were confirmed by that body today. We will be on a war basis too, soon."

Orders have been given to the United States armory at Springfield, Mass., to rush 100,000 Krag rifles to the different arsenals of the country. These arsenals are for the arming of the first troops that will be mustered into the national reserve provided for by the militia bill.

Waters was disbursing officer of the bureau of coast guard and transportation at Manila. When he disappeared from Manila, examination of his accounts was made and it is stated that they showed a shortage of \$8,000.

## WASHINGTON IS NOT PLEASED

Diplomats Do Not Like the Stand Taken by England, Germany and France.

## TROUBLE FEARED

It Is Now Thought That All the Venezuelan Ports Will Be Held.

(Special By Scripps-McLain.) Washington, D. C., Feb. 3.—Diplomatic circles are much disappointed over the failure of the allies to accept the offer made by Minister Bowen in the settlement of the Venezuelan question. Real anxiety is felt over the situation which is considered most critical.

**Trouble Feared**  
The stand taken by the powers in refusing to accept anything but the course of receiving the preference share of the payment has caused comment that it far from complimentary to the powers.

**Divide Venezuela's Ports**  
Some of the more pessimistic predict that before long all the ports of Venezuela will be in the hands of the powers and that they will divide them among themselves to suit their demands.

**Delay Settlement**  
There is a suspicion in some quarters that the allies are purposely delaying the conclusion of the negotiations to enable them to work out some secret design in the meantime. The German and British ambassadors called on Minister Bowen this morning and remained in consultation for some time. Before the conference Bowen told Senator Hanna that he did not believe that the reference to The Hague was probable. He regarded the outcome as extremely doubtful, owing to the many complications that have arisen during the past week.

**The Ultimatum**  
Venezuela at the conclusion of the conference as announced by Bowen had given the allies the choice between sending the dispute to the Hague and accepting his offer of preferential treatment for a period of one month. This is the line of the prediction made last night and is virtually an ultimatum. Bowen told the diplomats that it would be impossible for Venezuela to consent to proposal of allies that it would turn over two-thirds of collections to them in light of her obligations to other foreign powers.

For many years he had traveled the streets of St. Paul selling lead pencils and shoestrings and was believed to be rich. He was a depositor in the Germania bank at the time of the failure and since then had shunned banks. He was known as the "miser of red town."

Liverpool, Feb. 3.—The Shipowners association adopted a report strongly condemning the antiquated shipping laws which are said to be gradually forcing the carrying trade of the world into the hands of foreigners. The report demands imperial control of the mercantile marine and the lighthouse service instead of the present colonial regulation and also holds that foreign vessels should be held answerable within the jurisdiction of the British courts for claims in which British subjects are interested.

## POWER OF ITALY BEGINS TO WANE

OUTSIDE INFLUENCES DESTROY  
RENAISSANCE SPIRIT.

## FIRST INVASION OF FRENCH

The Life and Influence of Savanarola  
Also Treated in Miss Kellogg's Lecture.

For the subject of her lecture before the Monday club, at their meeting held in the parlors of the Congregational church Monday evening, Miss Louise Phelps Kellogg of Madison, chose the first invasion of Italy by the French and the influence of the man who was a fitting close for the Italian Renaissance and the beginning of the Reformation, the great Dominican monk, Savanarola.

**A Notable Year**  
The year 1492 was an important one historically. Had one lived in Italy at that time the discovery of America by Columbus would have seemed less important than two other events. In the fall of 1492 Lorenzo de Medici died and the year marked an epoch in Italian history. Lorenzo had aimed to preserve the peace and independence of Italy and to repel foreign influences and it is significant that the first invasion should follow his death so closely.

During the year Innocent VIII, pope of Rome, also died. Political intrigues followed and the papal power was purchased by Alexander VI, the most unblushingly immoral of all the popes. The intrigues which followed his death were among the influences which cut down in its prime the beauty of the Renaissance.

**France Was Powerful**  
Louis IX of France had left to his weak-minded, weak-bodied son, Charles VIII, a consolidated kingdom and a rich treasury. Charles had few qualifications to fit him for a ruler and the flattering courtiers who surrounded him easily persuaded him that he ought to extend his power by sending an army to invade Italy. Ludovico, duke of Milan, was largely instrumental in convincing the French king that he ought to become the hero of a new crusade and the instrument of God to rid Naples of a bad ruler. Consequently Charles VIII raised a magnificent army and went to claim his lapsed rights to the throne of Naples.

**Attitude of Ludovico**  
Ludovico's interest is easily understood. He was not the real duke of Milan, but was merely regent during the minority of the son of his elder brother. This nephew had married a grand-daughter of the ruler of Naples and she was constantly beseeching her grandfather to secure her husband's rights for him. Lorenzo was a friend of the ruler of Naples and so long as he lived Ludovico was safe. After the death of Lorenzo Ludovico sought to make allies first of Venice, then of Germany and finally induced the invasion by the northern barbarians, as the Frenchmen were called.

The French army met with little resistance. It was a holiday promenade, but after the French had reached Naples Ludovico began to distrust his allies and entered into an intrigue with the Pope to oppose their conquests. Charles VIII was warned and began the backward march. There was one drawn battle between the two forces and within a few weeks the old Neapolitan rulers were back on the throne.

**Results of Invasion**  
The only result of the invasion seems to have been the establishment of Florence as a republic in league with France. In itself the invasion was in significant but it was the first of a great series. Italy became the fighting ground of the nations and was left devastated and enslaved by foreigners. It was the real end of Italian peace, independence and progress. The nation remained a slave until the nineteenth century, when it again asserted its independence. The invasion was not an unmitigated evil because through it other nations learned the beauty of the Renaissance.

**Savanarola's Influence**  
Miss Kellogg devoted the balance of her lecture to Savanarola who represented the rebellion of the individual to dominant authority and the conscience of the people as aroused by the immorality which followed the freedom of the times. She gave a brief account of his life, of his entering the convent and of his coming before the people with the message that was distinctly his, that Italy was in danger because of its sins and that retribution would come swift and sure.

**Swayed The People**  
The influence of Savanarola on the Florentine people is impossible to estimate. They were easily moved by his oratory and he was tremendously in earnest. In 1490 he preached his great series of Lenten sermons and the next year he was made prior to the cathedral. He began to assume the gift of prophecy and thundered forth his denunciations. He foretold the French invasion. He was pushed into a sphere of political action for which he was not fitted and became virtually the ruler of Florence.

**Enemies Arose**  
He was a great preacher but no politician and his enemies led by the astute politician and immoral pope began to arise. An effort was made to bribe Savanarola to silence by offering him a cardinal's hat and when he refused his arrest, trial and death by hanging soon followed. With him died the republic of Florence. He failed as a statesman but he earned the attention of the people to great moral truths and as a prophet his voice was not lost.

A marriage license was issued today to Albert B. Godfrey and Mary E. Thorburn both of Janesville. Henry Ebbott, of Edgerton, was in the city today attending to business in the county clerk's office.

## PRICE OF EGGS IS DECLINING

Local Dealers Say with the Coming of  
Warm Weather, Eggs Will Be  
Worth Twenty Cents.

The recent warm weather is beginning to show its effects upon the local egg market. While in most farm produce the Janesville market is guided by the Chicago prices in eggs they are higher and local dealers complain that they are paying too much by far for the supply that is coming onto the market.

**Differ in Value**  
Farmers are receiving about twenty-one cents a dozen for fresh eggs. These retail at different stores all the way from twenty-three to twenty-seven. The top price is for eggs that are known to be fresh while the lower price is for eggs which the farmer says is fresh.

**Chicago Markets**  
In the Chicago market the price of eggs at wholesale is 19 1/2 cents and the dealers say that the influx of southern eggs will bring this price even lower. These southern eggs have not yet reached Janesville but Milwaukee has had its share and eggs there are selling for twenty-one.

**Look For Cheaper Eggs**  
One dealer said this morning: "The warm weather has started the hens laying again and I should not be surprised to see eggs drop to twenty cents by the end of the week." Another dealer speaking of the situation said:

**Plenty of Eggs**  
"From now on, for a week or so at least, we shall have plenty of eggs. The warm weather has started all the stock the farmer had stored away and also has opened the doors of the cold storage plants so that the only difficulty will be to get strictly fresh ones. In order to keep up with the market a dealer must buy closely and not overstock his supply."

**Lent Cooking**  
In preparation for the Lenten season many cold storage plants have laid in a stock of eggs that may be placed upon the market at present for fear that they will spoil if the warm weather of the past week is not ended by a continuous cold spell.

## NO EARLY SPRING NOW EXPECTED

The Ground Hog Disbayed Orders,  
Emerges from His Hole and  
Sees His Shadow.

Either through miscarriage of order or open rebellion against the authority of the weather bureau, the ground hog emerged from his hole yesterday. Forecasters predicted Sunday that the cloudiness would prevail all of Monday and the woodchuck and the elements were of course, expected to act accordingly. But the sun shone out for several hours, and the famous little animal that hibernates until the second day of a second month was drawn from his quarters long enough to cast his shadow upon the earth and his shadow on the hopes of those who desire an early spring.

**Not Officially Recorded**  
The weather bureau takes no official cognizance of the actions of the ground hog. Nevertheless the opportunity given for the traditional shadow casting, in spite of the forecasts to the contrary, was not at all pleasing to the owner of the delphic voice of the weather department. Silence greeted the question as to what measures would be taken to prevent such a recurrence in the future. The mythical doings of the animal cast a gloom over all the surroundings, and the seer sat moony and uncommunicative throughout the day.

**Colder Weather**  
The prediction for today is increasing cloudiness, slightly colder and probably snow or rain. While this is in accordance with the shadow-graphic work of the ground hog, the weather man will not give his rival even the satisfaction of admitting it.

## ...Forty Years Ago...

Janesville Daily Gazette, Tuesday, February 3, 1863.—When the pro-slavery democrats of the Indiana and Illinois legislatures were guilty of proclaiming their opposition to the war and the government, we hoped to be spared such utterances in the Wisconsin legislature, but the same spirit seems to animate the fanatics in this state as in the others mentioned. We know now what is the matter with these men. They are hostile to the government under which they live. They desire to thwart its efforts to suppress the rebellion. It is well they no longer make pretensions of loyalty, but are open enemies and not concealed foes of the government.

Our dispatches today, from Charleston via Richmond, report that the rebels have obtained a complete victory over our navy at Charleston and in that vicinity. They make so much noise over it as to raise a suspicion that it is not genuine. It is possible that they may have surprised a boat belonging to our squadron, and by a well-aimed shot destroyed it. We are inclined to the opinion

## COUNCIL MEETS FOR USUAL WORK

OTHERS ARE PRESENTED.

The city treasurer's report for the month of January was referred to the same committee and was later reported correct and was placed on file.

**Court Report**  
The municipal court report for the month of January, the demand of August Maltwitz and the notice of injury of Rose Davey were referred to the judiciary committee. The municipal court report was received and placed on file and further time granted to investigate the claims for damages.

**Other Reports**  
The report of J. W. Hogan as chief of police and Henry Klein as light inspector were received and placed on file.

The petition protesting against J. E. Inman unloading ice on North Jackson street signed by the residents in that vicinity was received and carried over until the next meeting. The fire and water committee were also granted more time to report on Mr. Inman's application to build an ice house on North Jackson street.

**Highway Report**  
The highway committee presented the following report in regard to city labor.

To Mayor and Common Council: The committee on highways to whom was referred the petition presented by the Trades Council, would respectfully report that after giving the matter careful consideration, we would recommend that the city of Janesville pay for all labor where the same comes in competition with organized labor the prevailing wages paid in the said city for the same, except where said work is let by contract and that said city pay for labor at the stone quarry and crusher as follows: Engineer, \$2.50; driller, \$2.00; one man for general service, \$2.00 per day and for all other labor \$1.75 per day.

**Sewage Report**  
The sewage committee reported that Engineer Kerch would have the sewage plans ready in about four weeks and as it was a very important matter they asked that a competent sanitary engineer be employed to go over the plans with Engineer Kerch and see that they were all right. The committee was instructed to present the name of some competent man at the next meeting of the council.

The city clerk was instructed to draw an order for \$4,000 in favor of Blake Bros. to pay for the improvement of Milton avenue.

The question of city lights was brought up by the chair and Alderman Lowell took advantage of the occasion to state that the contract with the electric lighting company called for free lights in the council chamber and the clerk and treasurer's offices. The building had not been wired with this end in view and there was no way that the amount of light used in these rooms could be determined. He was empowered to have Chief Klein change the wires so that the current would not all go through one meter.

**That Lease**  
The question as to what had been done about the Municipal Court room lease was brought up, but as Mayor Richardson was not present and as he had been handling the matter it went over until the next meeting.

The clerk was instructed to draw an order on the city treasurer in favor of M. P. Richardson for the balance due him for revising the city ordinances.

On motion the council adjourned. Baby sleeps and grows while mamma rests if Rocky Mountain Tea is given. It's the greatest baby medicine ever offered loving mothers. 35 cents. Smith Bros.

## ...Forty Years Ago...

that the naval forces from Wilmington and Hilton head have by this time somewhat changed the paper victory of the rebels, as, at last accounts, a grand expedition for the reduction of Charleston was moving against the rebellious city.

Capt. Tucker of the Chicago reports the sinking of another federal gunboat, and disabling of the steamship, Quaker City. The latter was set on fire by the Chicago, and hauled down her flag and surrendered but afterwards managed to escape with only one wheel. She was seriously damaged.

In the present grave crisis of public affairs, when the Union cause is sorely set by enemies without and copperheads within its lines, it behooves all good and loyal men to organize and act together. A Union club or league ought to be formed in every town in the state, and placed in communication with a state central club or advisory committee. It may not be proper for us to chalk out the form that should be adopted, but some action should be taken.

## COZY CORNERS PLEASED MANY

Charming Adelaide Thurston is a  
Most Versatile Actress—  
A Good Company.

There was a day when it was a fad to gush of the charming simplicity and wholesome flavor of the kind of play of which "Way Down East" is typical. Evidently the Janesville theater clientele regards that day past, and refuses to sanction by its patronage the booking of any further productions of that class.

Certainly "At Cozy Corners," as presented at the Myers Grand last evening, in itself merited nothing less than a capacity house, and a change in the public taste is the most convenient way of accounting for the corporal's guard which was in attendance, unless, perhaps, all Janesville is awaiting the return of the Bostonians to the city.

Before so diminutive a house there is little wonder if some of the antics of Sophronia, Amanda, and the other village cut-ups, fell a trifle flat. Nevertheless a royal quartette of rural gawks managed to elicit a fair volume of laughter from that one-chair-filled-to-ten-empty house. They took the parts of an acrimonious, chin-whiskered skinflint; a love-struck teen, all legs and arms, whose replica may be found on any page of Judge; a likewise love-stricken maiden with an irrepressible giggle which carried a strong family resemblance to the bray of a domestic animal; and a "respectable, middle-aged, unmarried, female woman."

In the role of the young minister Francis Hope was a rarity. He played the clergyman without a trace of cant, sanctimony or lack of dignity. He was mainly, convincing and a handsome lover.

Miss Thurston was of course the one bright particular star. Some say that she cannot act. Perhaps not, but in "At Cozy Corners," she approaches about as nearly to the point of seeming to live a part on the stage as is possible in the midst of the mechanical adjuncts and artificial properties on which the modern stage director relies, and if that is not the highest form of acting, it is something better. She is a charming little woman, able to run with great facility the entire gamut of human emotions. The part of Claudia, the rage of the concert halls, lifted her well, but that of the minister's wife—a loving, somewhat vacillating, but passionately loyal and womanish sort of woman—served her even better.

## ANNUAL SESSION

Lewis Knitting Company Held Its  
Yearly Meeting Monday

The stockholders of the Lewis Knitting company held their annual meeting yesterday afternoon and elected officers for the ensuing year. There was but one change made in the officers of the company J. L. Wilcox being elected vice president to succeed R. E. Lodgerwood. F. B. Lewis was chosen president and F. F. Lewis, secretary and treasurer.

The annual report of the company's business for 1902 showed that it had been one of the most prosperous years in the history of the concern and from present indications 1903 would be even better than last year. The company now has four salesmen on the road who will start on their regular trips next week. J. L. Wilcox will cover Michigan, Indiana, Ohio, Kentucky and Tennessee.

Never before did Robin Hood receive such attention at the hands of scenic artists and costumers. The production on Thursday evening of the DeKoven-Smith famous comic opera at Myer's opera house by the Bostonians will be on a scale of splendor surpassing any previous presentation of the piece in this

ensemble of nearly a hundred people and stage settings exquisitely elaborate will give "Robin Hood" the most spectacular presentation of his prosperous career, and in marked contrast to the first puny production over twelve years ago in Chicago. The chorus, it is said, will be on a grand opera scale, being

**H. C. BARNABEE** considerably augmented in numbers, and a crowd of auxiliaries will disport themselves in the Nottingham fair scene and in the gambols of Sherwood forest. The company selected by the Bostonians this season appears to be particularly strong. Grace Van Studdiford will be the Maid Marian, Josephine Bartlett, the original Dame Durden, will continue in that role; George B. Frothingham promises an exact reproduction of his first performance of Friar Tuck, expecting to be just as nervous as if it were a first night. Olive C. Moore will appear as Alan-a-Dale, Allen C. Hinckley is to sing Will Scarlett's role. The title role, Robin Hood, will be played alternately by William C. Weedon and Harold Gordon, both tenors having an equal standing in the company. Sabery D'Orsell is cast for Anabel, and Campbell Donald will play Guy of Gisborne.

## FAIL TO AGREE ON WAGE SCALE

### MINES MAY BE CLOSED DOWN

General Suspension of Work in the Bituminous Field Is Looked Upon as Within the Range of Possibilities After April 1.

Indianapolis, Feb. 3.—Among the operators and miners attending the meetings here of the joint scale committee of the United Mine Workers of America the conviction is growing that there will be a general suspension of bituminous coal mining. So far as the present outlook goes, there is no possibility of an agreement.

The joint committee met again and the work of reaching a basis of agreement was delegated to two operators and two miners from each state, thus reducing the committee to sixteen members. The same rules govern this subcommittee that obtained in the general committee meetings, and if it fails to reach an agreement, as now seems apparent, the other sixteen will undertake the work.

### In Favor of Closing.

"We failed to agree on a scale once," said an operator, "and a long struggle followed. We won in the end, but the miners are now in better financial condition than they were then, and might hold out a pool deal longer. Our mines might as well be idle as be operated at a loss, and if one or the other of these alternatives is presented we will choose the former."

It was reported that if there is no agreement on a scale and a suspension after April 1 appears inevitable, President Mitchell may reconvene the delegates in general convention and take steps to raise the defense fund to at least \$2,000,000 and possibly \$3,000,000.

### Confers With Blatchford.

M. D. Blatchford, the predecessor of John Mitchell as president of the United Mine Workers, but now a labor commissioner of the state of Ohio, came here at the request of Mr. Mitchell, and the two were in conference for several hours. It is expected that other labor leaders may be called here to discuss the situation in the bituminous fields and give President Mitchell the benefit of their advice.

Mr. Mitchell, it is said, is taking anything but an optimistic view of the situation. Other national officers do not speak with as much confidence as they did at first. Operators who at first said the miners would lower their demands when they discovered that they would not be granted are now taking a different view and do not regard the suspension of coal mining throughout the competitive district as outside of the range of reasonable probabilities.

### Illinois Men Stubborn.

The most stubborn contention that has occurred in the committee meetings has been between the Illinois miners and operators. The latter have demanded the abrogation of the "run-of-mine" system unless all the other districts are placed upon it, and have been flatly told by the miners that the system is a fixture in Illinois and that under no circumstances will it be abrogated.

## MANY OBSERVED ST. BLAISE DAY

THROATS BLESSED AGAINST ALL  
POSSIBLE DISEASE.

### THE CUSTOM AN ANCIENT ONE

Priest Invokes Saint's Blessing with  
Two Candles Held in Form  
of a Cross.

All over the world today people have had their throats blessed against all possible disease and difficulty. The custom is, one that is observed generally in the Catholic church and is known as St. Blaise day. An interesting fact in connection with the observance is that while it is distinctly a Catholic institution, many non-Catholics have faith in it and go annually to the Catholic priests to have their throats blessed.

An impressive service in the local Catholic churches the custom was observed by a large number of people. At St. Mary's church certain hours were set aside for the service, Father Goebel being in the church at 8 o'clock this morning and 12:30 this afternoon and he will repeat the service at 7 o'clock this evening. At St. Patrick's church throats were blessed when ever people called, during the entire day and those who desire may call at any time this evening. Rev. Fathers McGinnity and Weber have charge. The service itself is quite an impressive one. Two candles which have been blessed by the prayers of the church, are used by the priest who holds them in the form of a cross under the throat of each person while he invokes the intercession and the blessing of St. Blaise in a brief prayer.

Life of the Saint  
The custom dates back to the early part of the fourth century when St. Blaise, or Blasius as it is sometimes spelled, lived in Sebaste, a small town in Armenia. He was respected by his countrymen for his piety and learning and at their petition he was made a bishop. Soon after this came the time of terrible persecutions for the Christians and the bishop fled into the mountains and lived in a cave where he gave himself up to meditation and prayer. He was accidentally discovered through the agency of a deer which took refuge in the cave and was led forth and terribly persecuted. Efforts to compel him to burn incense to false gods and to worship idols failed and finally when he persistently refused to renounce Christ he was thrown into prison, tortured in every known way and finally put to death.

Miraculous Cures  
According to the traditions of the Catholic church it was while in prison that many miracles were performed through the intercession of St. Blaise and these miracles caused him to be persecuted more terribly. The miracles were generally the healing of diseases and the most notable one was that of the rich woman's son who was threatened with death owing to a fish bone in his throat. Because of the many miraculous cures of a similar nature people began to seek the intercession of St. Blaise against all evils of the throat. It is the custom which prevails to this day when the faithful assemble in the church each year on the third of February and through their priest invoke the blessing of St. Blaise.

## FINAL SERVICES FOR THE MISSION

THE HOLY CROSS FATHERS WILL  
LEAVE THURSDAY NOON.

### GREAT SERIES OF MEETINGS

Many People Have Enjoyed the  
Scholarly Addresses—Notice  
of the Last Services.

Many people who have enjoyed the privileges of the mission which is being held in Christ and Trinity churches regret the fact that it is rapidly drawing to a close. The final service of the mission will be held on Thursday morning and the Holy Cross Fathers who have been the work in charge will leave at once for Milwaukee where they will conduct a mission in All Saints Cathedral.

Made Many Friends  
During their stay in this city Fathers Huntington, Hugison and Shi have accomplished a great work in the two churches in which they have been laboring. All the services have been largely attended and the final meetings will doubtless be enjoyed by many who are reluctant to have the services end.

Final Services  
The last of the intensely practical addresses to women will be delivered Wednesday afternoon at three o'clock and at 4 o'clock it will be followed by the final catechism for children. About one hundred children will then receive their medals for regular attendance.

Two more of the mission sermons and instructions will be given, meetings being held at both churches to night and Wednesday night. The final service, corporate communion, will be held on Thursday morning and the parishes will then be turned over to their respective priests.

Go To Milwaukee  
The mission fathers will leave on Thursday noon for Milwaukee and will begin their work in the Saints cathedral Thursday evening. The series of services which has been conducted by these fathers of the Order of the Holy Cross in this city has been a marvelous one, the effect of which cannot but be beneficial to all who have heard them. There is still opportunity to hear and to heed and those most interested hope that these closing services will be largely attended.

### UNIFORM FEE BILL TAKEN UP

Committees Are Appointed to Confer  
with the County Board Committees to Secure Legislation.

The adjourned annual meeting of the Rock County Bar Association was called to order at eleven o'clock in the circuit court room this morning by President William Smith. Most of the members of the bar from this city were present and members from Beloit, Edgerton and Evansville were also in attendance and took part in the proceedings.

The reports of the secretary and treasurer for the past year were read and approved and were followed by the election of officers for the ensuing year the following being chosen for the positions: Wm. Smith, Pres.; John Cunningham, Vice Pres.; A. W. Fisher, Sec.; and Bernard Palmer, Treas.

Uniform Clerks Fees  
One of the principal objects of the meeting was the drafting of resolutions regarding a uniform system of clerk's fees and a uniform fee bill. Their object in this matter is to have some certain amount fixed by law to cover the fees in certain classes of cases.

Measure Discussed  
This matter was brought up at the last meeting of the county board and a committee consisting of supervisors, Gettle, Smiley and Trendway, was appointed by Chairman White to confer with the bar association. This matter was taken up this morning and the following committees appointed by President Smith to investigate the matter and report after tomorrow.

Fee bill, T. S. Nolan, J. J. Cunningham and Edward H. Ryan; clerks' fees, E. D. McGowan, J. W. Sale and William G. Wheeler.

Want Average Fee  
At 12 o'clock an adjournment was taken until two o'clock for dinner and to give the committees a chance to report. The idea of the Bar association is to strike some average fee that will not reduce the revenue of the county from this source and to get legislation on the subject.

ILLINOIS SOLONS  
TO BEGIN WORK

LITTLE CHANCE FOR A CLASH

Shermanites Have Been Placated by a Promise of Fair Treatment and Rules Are Likely to Be Adopted as Reported.

Springfield, Ill., Feb. 3.—Speaker Miller expects to announce the standing committees of the house Thursday or Friday, and get the real business of the session started next week. But while he is anxious to get the committees named as soon as possible he is also anxious to reconcile all conflicting interests on the Republican side, so that when the work of the session commences it can be rushed without friction. Consequently, a further delay of a week in the announcement of the committees is possible.

To Decide on Rules.

The rules question will come up this week, probably Thursday, and after the vote on that the speaker will know where he stands. There is less sign than ever of the Shermanite "39" uniting with the Democrats to tie the speaker's hand or, failing that, to make a demonstration against him. The Shermanites are getting such assurances of fair treatment in committee assignments that the fighting spirit is leaving the majority of them.

Another consideration is this: The Cook county men in the Shermanite column, who have been a compact body of ten or a dozen, are getting the impression that they are being used as a flying wedge with which to batter the enemy, while country members of the Sherman following are getting, in concessions, the benefit of the battering. In other words, some of these Cook county men dislike the possibility of being left to hold the bag.

It is now expected that there will be no fight over the rules except such as the Democrats may make on strictly party lines.

After the Chairmanships.

The speaker still has some kinks to straighten out in the matter of committee chairmanships. A. W. Nohe for chairman of the municipal corporations committee is still under the head of unfinished business. If he does not get it his Cook county friends will be disappointed.

Cleora J. Lindly, having been president of the railroad and warehouse board for four years, has been slated for chairman of the committee on railroads. George R. Lyon of Waukegan, formerly slated for chairman of the committee on banks and banking, is reported to be after railroads. Lindly, as one of the "speakership syndicate" which went into the "blind pool" for Miller last November, is generally supposed to be entitled to about what he wants, and Nohe, as one of the first in the Miller column, is in about the same class.

May Rush Business.

Among the supporters of Miller there is talk of trying to rush business and make this a short session—adjourn it as soon as the appropriation bills can be got out of the way. The argument advanced for such a program is "good politics," on the ground that the shorter the session after March 4 the easier it will be for Senator Hopkins, Speaker-to-be Cannon of the national house and other big men in the "organization" to begin smoothing over differences and laying a foundation for the politics of 1904.

ATTEMPT TO POISON A MIDGET

Unknown Person Sends Candy to Chiquita, Almost Causing Death.

Sharon, Pa., Feb. 3.—Chiquita, said to be the smallest woman in the world, was poisoned and almost died from eating candy sent her from Buffalo. Upon receipt of the package two Pinkerton detectives who constantly guard her because of threatened attempts to kidnap her opened it and examined the contents. The package contained six silk handkerchiefs and some silk hose. They gave the package to Chiquita, who found in the toe of one of the stockings a piece of candy. She ate part of it and became violently ill. Physicians summoned stated she was suffering from arsenical poison.

Tourists Get Back.

To Commemorate.

Furs For Winter.  
Mink is a handsome, refined and always fashionable fur, and many beautiful garments and pretty neck pieces, including stoles, are made of it. Mink, sable and skunk are all of the same family, the furs tell us, but they are too thick for anything in the way of a tight garment, and so are mostly for capes, mantles, trimmings and fancy neck pieces. Nearly all the stoles are made quite flat around the neck and without any kind of attempt at a collar, storm or otherwise. Collars for children are made in the same way. Tails are put upon the neck pieces with a reckless disregard of natural history. Muffs are quite large, mostly plain, but there are some enormous ones to match long coats and also others with all sorts of fancy ruffles made of the fur.

A Woman of Enterprise.

Here is a little story. Read it: Some years ago a Miss Fanny Seabride went from Chicago to Texas as a governess. Four years ago she got the post of fence rider and cattle guard for Horse-shoe ranch. She attended to her duties and likewise killed wild animals for whose scalps the state offered a bounty. She obtained \$1,251 in this way and invested it in cattle. Now she owns over a thousand head.

Washington, Feb. 3.—Representative Sulzer of New York has introduced a concurrent resolution providing for the appointment of a joint committee of the two houses of congress to investigate the present policy of international navigation of this country, to trace its effects upon the merchant marine and to report bills for the development of American shipping.

Richards Assumes Office.

Washington, Feb. 3.—Commissioner Richards of the general land office assumed active charge of his new duties and received the several hundred clerks in the bureau. His first official act was to abolish the system of sending out cards of acknowledgment of all communications to the office, a work that has required the entire attention of four clerks.

Respond to Dewey's Appeal.

Washington, Feb. 3.—In response to the appeal for subscriptions to the proposed memorial to Thomas Jefferson \$100 was sent to Admiral Dewey. It came by telegraph from Nettie E. Casper, regent of the Colorado Society of the Daughters of the Revolution at Denver. This was the initial subscription.

Senate Has Boundary Pact.

Washington, Feb. 3.—The Alaskan boundary treaty was returned to the senate by the president, the clerical errors which caused its recall having been corrected. Senator Cullum from the committee on foreign relations again reported the treaty to the senate.

Save Our Young Women!

Thousands Employed in Our Large Departmental Stores and Public Offices are now Weak and Sickly.

Tell Them of

Paine's Celery Compound

WOMAN'S UNFAILING REGULATOR AND HEALTH GIVER.

In the mammoth departmental stores and large public offices of our leading cities, there are thousands of young women employed. From the morning opening hour till these vast hives of trade close at night, these young women are expending their energy and strength in serving their masters and a critical public. Long hours, close confinement, imperfect ventilation, excitement, and brain worry, soon leave marks of creeping disease and sickness. Headache, sleeplessness, indigestion, constipation, neuralgia, rheumatism, and nervousness make the lives of young women miserable and almost unbearable. In thousands of cases the traces of terrible blood troubles are seen in the faces of those who should look comely and attractive.

To the class of suffering young women just referred to, we would say that Paine's Celery Compound is a blessed agent of health and womanly vitality. This medicine is a positive and true nerve food and system cleanser. It corrects any tendency to constipation; it tones the stomach, keeps digestion perfect, the brain feels the strengthening effects of the superb nutrition it affords, natural refreshing sleep takes the place of insomnia, and the rose blush is brought to the pale face. We argue upon all such and weak young women the necessity of Paine's Celery Compound for their peculiar ailments. It has made thousands strong; it will give you the same happy results.
